Dear Mr. Prescott:

The matter of recovery of certain U.S. cents stolen long ago by Dr. William H. Sheldon from the American Numismatic Society has as you may know continued up to the present. Many of the missing pieces have been recovered by ANS and the litigation has come to an end. ANS recently obtained some recoveries from the estate of a deceased possessor as title to stolen pieces we were told never changes by lapse of time. There are just a few pieces which ANS is still entitled to and we are trying to be of help in arranging for their return.

You have had a long time to think about your situation as to the following U.S. cents:

1797 S.137 AU50

1803 S.247 AU55

and we would like to hear from you about them.

1-777-777

Your cooperation would be appreciated.

\$3,000-\$3,500

Very truly yours,
